Mortgage Rates Show Little Movement

November 20, 2025

MCLEAN, Va., Nov. 20, 2025 (GLOBE NEWSWIRE) -- Freddie Mac (OTCQB: FMCC) today released the results of its Primary Mortgage Market Survey® (PMMS®), showing the 30-year fixed-rate mortgage (FRM) averaged 6.26%.

“Mortgage rates have been shifting within a narrow ten-basis point range over the last month. This rate stability is a positive sign for both buyers and sellers, as it helps provide greater certainty in the housing market,” said Sam Khater, Freddie Mac’s Chief Economist.
