

## Freddie Mac Prices Its Largest SHRP Deal

November 15, 2018

### Vast Majority of HARP Portfolio Has Significant CRT Coverage

MCLEAN, Va., Nov. 15, 2018 (GLOBE NEWSWIRE) -- [Freddie Mac](#) (OTCQB: FMCC) today announced the pricing of a \$1.3 billion Structured Agency Credit Risk (STACR<sup>®</sup>) Trust 2018-HRP2 transaction; Freddie Mac's third and largest STACR HARP (SHRP) transaction includes mortgage loans refinanced through the Home Affordable Refinance Program (HARP).

"With our SHRP offering, we have successfully transferred a significant portion of credit risk on our HARP portfolio," said Mike Reynolds, Freddie Mac Vice President of Credit Risk Transfer.

Bank of America Merrill Lynch and Morgan Stanley serve as lead managers and joint bookrunners. Pricing for \$1.3 billion STACR Trust Series 2018-HRP2:

Class	Coupon
M-1	One-month LIBOR plus a spread of 85 bps.
M-2	One-month LIBOR plus a spread of 125 bps.
M-3	One-month LIBOR plus a spread of 240 bps.
B-1	One-month LIBOR plus a spread of 420 bps.
B-2	One-month LIBOR plus a spread of 1050 bps.

STACR 2018-HRP2 has a reference pool of single-family mortgages with an unpaid principal balance (UPB) of approximately \$26.2 billion, consisting of a subset of fixed-rate, single-family mortgages with an original term of 241 to 360 months funded by Freddie Mac between April 1, 2013 and Dec. 31, 2016. The reference pool includes loans refinanced under Freddie Mac's Relief Refinance Program with estimated loan to value (ELTV) ratios greater than 60 percent and less than 200 percent or, if the loan does not have an ELTV, an OLTV greater than 80 percent and less than 200 percent. As with STACR debt, a hypothetical structure of classes of reference tranches has been established which is backed by the mortgage loans in the reference pool.

Freddie Mac retains the senior loss risk A-H reference tranche and the first loss B-3H reference tranche. Freddie Mac also retains a portion of the credit risk in the M-1, M-2, M-3, B-1 and B-2 reference tranches.

"Freddie Mac's STACR program continues to deliver sought-after securities to investors worldwide while fostering a stronger and more stable housing finance system. We look forward to offering investors STACR REMIC early next year," Reynolds added.

Freddie Mac has led the market in introducing new credit risk-sharing offerings with STACR DNA, HQA and HRP programs, STACR Securitization Participation Interests (STACR SPI<sup>®</sup>), Agency Credit Insurance Structure (ACIS<sup>®</sup>) and Whole Loan Securities (WLS<sup>SM</sup>). The company has since grown its investor base to more than 230 unique investors, including insurers and reinsurers. Since 2013, the company has transferred a significant portion of credit risk on approximately \$1.2 trillion of UPB on single-family mortgages.

This announcement is not an offer to sell any Freddie Mac securities. Offers for any given security are made only through applicable offering circulars or private placement memoranda and any related supplements, which incorporate Freddie Mac's Annual Report on Form 10-K for the year ended December 31, 2017, filed with the Securities and Exchange Commission (SEC) on February 15, 2018; all other reports Freddie Mac filed with the SEC pursuant to Section 13(a) of the Securities Exchange Act of 1934 (Exchange Act) since December 31, 2017, excluding any information "furnished" to the SEC on Form 8-K; and all documents that Freddie Mac files with the SEC pursuant to Sections 13(a), 13(c) or 14 of the Exchange Act, excluding any information "furnished" to the SEC on Form 8-K.

Freddie Mac's press releases sometimes contain forward-looking statements.
