

Fixed-Rate Mortgages Remain Unchanged

January 24, 2019

MCLEAN, Va., Jan. 24, 2019 (GLOBE NEWSWIRE) -- [Freddie Mac](#) (OTCQB: FMCC) today released the results of its [Primary Mortgage Market Survey](#)[®] (PMMS[®]), showing that the 30-year fixed-rate mortgage remained unchanged for the third consecutive week.

Sam Khater, Freddie Mac's chief economist, says, "Mortgage rates have stabilized during the last month and are essentially at the same level as last spring – yet the most recent home sales are roughly half a million lower over the same period. Given that the economy remains on solid footing and weekly mortgage purchase application activity has been strong so far in 2019, we expect the decline in home sales to moderate or even reverse over the next couple of months."
