

Mortgage Rates Decrease

October 10, 2019

MCLEAN, Va., Oct. 10, 2019 (GLOBE NEWSWIRE) -- [Freddie Mac](#) (OTCQB: FMCC) today released the results of its [Primary Mortgage Market Survey](#)[®] (PMMS[®]), showing that the 30-year fixed-rate mortgage (FRM) averaged 3.57 percent, down 8 basis points from last week.

"Despite the economic slowdown due to weakening manufacturing and corporate investment, the consumer side of the economy remains on solid ground," said Sam Khater, Freddie Mac's Chief Economist. "The fifty-year low in the unemployment rate combined with low mortgage rates has led to increased homebuyer demand this year. Much of this strength is coming from entry-level buyers – the first-time homebuyer share of the loans Freddie Mac purchased in 2019 is forty-six percent, a two-decade high."

News Facts

- [30-year fixed-rate mortgage](#) averaged 3.57 percent with an average 0.6 point for the week ending October 10, 2019, down from last week when it averaged 3.65 percent. A year ago at this time, the 30-year FRM averaged 4.90 percent.
