

Mortgage Rates Hit Another All-Time Low

September 10, 2020

MCLEAN, Va., Sept. 10, 2020 (GLOBE NEWSWIRE) -- [Freddie Mac](#) (OTCQB: FMCC) today released the results of its [Primary Mortgage Market Survey®](#) (PMMS®), showing that the 30-year fixed-rate mortgage (FRM) averaged 2.86 percent, the lowest rate in our survey's history which dates back to 1971.

"Mortgage rates have hit another record low due to a late summer slowdown in the economic recovery," said Sam Khater, Freddie Mac's Chief Economist. "These low rates have ignited robust purchase demand activity, which is up twenty-five percent from a year ago and has been growing at double digit rates for four consecutive months. However, heading into the fall it will be difficult to sustain the growth momentum in purchases because the lack of supply is already exhibiting a constraint on sales activity."
