

Mortgage Rates Drop, Hitting Another All-Time Low

October 15, 2020

MCLEAN, Va., Oct. 15, 2020 (GLOBE NEWSWIRE) -- [Freddie Mac](#) (OTCQB: FMCC) today released the results of its [Primary Mortgage Market Survey®](#) (PMMS®), showing that the 30-year fixed-rate mortgage (FRM) averaged 2.81 percent, the lowest rate in our survey's history which dates back to 1971.

"Low mortgage rates have become a regular occurrence in the current environment," said Sam Khater, Freddie Mac's Chief Economist. "As we hit yet another record low, the tenth record this year, many people are benefitting as refinance activity remains strong. However, it's important to remember that not all people are able to take advantage of low rates given the effects of the pandemic."
