

Mortgage Rates Continue to Inch Up

March 18, 2021

MCLEAN, Va., March 18, 2021 (GLOBE NEWSWIRE) -- <u>Freddie Mac</u> (OTCQB: FMCC) today released the results of its <u>Primary Mortgage Market Survey</u> (PMMS®), showing that the 30-year fixed-rate mortgage (FRM) averaged 3.09 percent.

"As expected, mortgage rates continued to inch up but are still hovering around three percent, keeping interested buyers in the market," said Sam Khater, Freddie Mac's Chief Economist. "However, residential construction has declined for two consecutive months and given the very low inventory environment, competition among potential homebuyers is a challenging reality, especially for first-time homebuyers."
