

## Mortgage Rates Continue to Move Up

June 23, 2022

MCLEAN, Va., June 23, 2022 (GLOBE NEWSWIRE) -- <u>Freddie Mac</u> (OTCQB: FMCC) today released the results of its <u>Primary Mortgage Market Survey</u>® (PMMS®), showing that the 30-year fixed-rate mortgage (FRM) averaged 5.81 percent.

"Fixed mortgage rates have increased by more than two full percentage points since the beginning of the year," said Sam Khater, Freddie Mac's Chief Economist. "The combination of rising rates and high home prices is the likely driver of recent declines in existing home sales. However, in reality many potential homebuyers are still interested in purchasing a home, keeping the market competitive but leveling off the last two years of red-hot activity."
