

Mortgage Rates Continue to Hover in the Mid-Six Percent Range

January 11, 2024

MCLEAN, Va., Jan. 11, 2024 (GLOBE NEWSWIRE) -- [Freddie Mac](#) (OTCQB: FMCC) today released the results of its [Primary Mortgage Market Survey®](#) (PMMS®), showing the 30-year fixed-rate mortgage (FRM) averaged 6.66 percent.

"Mortgage rates have not moved materially over the last three weeks and remain in the mid-six percent range, which has marginally increased homebuyer demand," said Sam Khater, Freddie Mac's Chief Economist. "Even this slight uptick in demand, combined with inventory that remains tight, continues to cause prices to rise faster than incomes, meaning affordability remains a major headwind for buyers. Potential homebuyers should look closely at existing state and local resources, such as down payment assistance programs, which can considerably help defray closing costs."

News Facts

- The [30-year FRM](#) averaged 6.66 percent as of January 11, 2024, up from last week when it averaged 6.62 percent. A year ago at this time, the 30-year FRM averaged 6.33 percent.
- The [15-year FRM](#) averaged 5.87 percent, down from last week when it averaged 5.89 percent. A year ago at this time, the 15-year FRM averaged 5.52 percent.

The PMMS® is focused on conventional, conforming, fully amortizing home purchase loans for borrowers who put 20 percent down and have excellent credit. For more information, view our [Frequently Asked Questions](#).
