

## **Mortgage Rates Continue to Increase**

October 17, 2024

MCLEAN, Va., Oct. 17, 2024 (GLOBE NEWSWIRE) -- <u>Freddie Mac</u> (OTCQB: FMCC) today released the results of its <u>Primary Mortgage Market Survey</u> (PMMS®), showing the 30-year fixed-rate mortgage (FRM) averaged 6.44 percent.

"The 30-year fixed-rate mortgage increased for the third consecutive week, moving closer to 6.5%," said Sam Khater, Freddie Mac's Chief Economist. "In general, higher rates reflect the strength in the economy that is supportive of the housing market. But notably, as compared to a year ago, rates are more than one percentage point lower and potential homebuyers can stand to benefit, especially by shopping around for the best quote as rates can vary widely between mortgage lenders."
